

RESTART [FEAT. LIV MARIE] - TY RICHARD

[Verse 1]

You were right.

Needing your love again, with the feelings I keep inside.

And the moment I call, whenever I'm cryin' out,
is the moment I need, whenever I find you now.

Something maintain, still coming up on my brain,
talking about you and I, holding me down in my life.

Tell me if u wanna be, loved like a sure guarantee.

Every single time you know, every time i call, oh.

[Chorus]

I wanna restart with you, shouldn't have gone this way.

I wanna restart again now,
love you like how I used to be now,
you remember that.

I wanna restart with you,
yeah, I wanna stay.

Know that you keep your promises now,
don't let you go and I'll listen now,
I'll remember that.

[Verse 2]

Always hangin' off of every single word you say,
sound is sweetest to me when you call my name.

Heart breaks when I go away,
didn't mean to show up to you giving no love to you.

Take me back to our love at first,
I just wanna give you everything that you deserve.

Every time when I hear your voice,
call and say to me "don't go".

[Verse 3]

Stay like this,
when it all makes sense.
Tell u when I know I know.
Loving not like this,
and one last thing
tell you this thing first:

[Chorus]

I wanna restart with you, shouldn't have gone this way.
I wanna restart again now,
love you like how I used to be now,
you remember that.
I wanna restart with you,
yeah, I wanna stay.
Know that you keep your promises now,
don't let you go and I'll listen now,
I'll remember that.

[Bridge]

Your love don't test, I need u this much.
My love, I need you, I need you this much.
I know I said I'm sorry before.
I know you've heard it all before.
Well now, I'm not the same I was anymore.

[Chorus]

I wanna restart with you, shouldn't have gone this way.
I wanna restart again now,
love you like how I used to be now,

you remember that.
I wanna restart with you,
yeah, I wanna stay.
Know that you keep your promises now,
don't let you go and I'll listen now,
I'll remember that.
